# IRON STAIN PREVENTION

Cuts Concentrate Use by **50%**  
 over most competitor's brands

**RustAway** is a highly concentrated formulation of phosphate blended with a premiere sequestering agent of use in iron and manganese deposit control.

**RustAway** is a liquid concentrate of exceptional purity, clarity and stability.

**RustAway** stops the clinging that leaves the ugly stain and buildup

**RustAway** designed for use in all metered injection systems

**RustAway** requires no testing for Hardness or PH as these levels do not effect how RustAway works.

**RustAway** in 1 gallon size, will treat +/- 200,000 gallons of water with **10 ppm of iron and manganese**.

A 30 gal siphon or injection system that dispenses 1 gal per hour treating 20-25 gpm with 10 ppm, only needs 2 gallons of **RustAway**. Most competitors products would call for 4 gallons.

More simply that's 25.6 ounces per ppm per 30 gal tank. Compared to competitors, **that's 1/2 their rate!**

## RustAway Formula Chart Calculations:

### Gallons of Rust Away ISP per 30 Gallon Mixture Tank

Pump Rate Setting	32 oz/hr	64 oz/hr
Tank Depletion Rate	90 hr of irrigation	60 hr of irrigation

PPM of Iron	Quantity of RustAway Needed	
-------------	-----------------------------	--

1	1 gallon	64 oz.
2	1 gallon 64 oz.	96 oz.
3	2 gallons 64 oz.	1 gallon 32 oz.
4	3 gallons	1 gallon 64 oz.
5	4 gallons	2 gallon
6	4 gallons 64 oz.	2 gallons 32 oz.
7	5 gallons 64 oz	2 gallons 96 oz.
8	6 gallons	3 gallons
9	7 gallons	3 gallons 64 oz.
10	8 gallons	4 gallons
