

Is Your Lawn Hungry?

Your lawn shouldn't have to wait for the man in the big truck to come around to feed it every couple of months. Our automatic micro-dosing feeding system breaks the feast-or-famine cycle of lawn nutrition.

BioMagic and *NutriMagic* give your lawn the essential nutrients it needs every time you water.

AquaMagic helps your lawn retain nutrients naturally to keep it healthy and attractive while using less water.

Stop Starving Your Lawn
